

z/VM and Linux on z Systems Performance Class

19, 20 & 21 of June 2017, Ohio State University, Columbus Ohio

How to best manage your z/VM and Linux on z Systems environment using zVPS, Velocity's Performance Suite

Use this great opportunity and join us for a three day class at Ohio State University. Benefit and learn from **Barton Robinson's** 30 years of expertise and experience with hundreds of z/VM and Linux on z Systems installations around the globe.

Agenda:

- ▶ Performance Best Practices

- ▶ Performance Overview:
 - Monitoring z/VM and Linux on s/390
 - z/VM Performance Measurement
 - Measurement Methodologies

- ▶ z/VM Scheduler/Dispatcher

- ▶ Analyzing Subsystem Performance with zVPS:
 - Processor
 - Storage
 - Paging/Spooling
 - DASD

- ▶ Capacity Planning Methodologies

- ▶ Linux Monitoring and Tuning:
 - Linux Process Analysis
 - Storage Analysis
 - Application Analysis (Oracle, Websphere, Docker)

- ▶ zAlert: How to tailor our Operational Alert Manager to meet your requirements, Speaker: Rich Smrcina

- ▶ Automated Operations using zOPERATOR, Speaker: Tim Kessler

- ▶ Performance Monitoring using zVIEW, Speaker: Tim Kessler

- ▶ Configuring zVPS Advanced Topics

When: 19 - 21 June 2017

Time: 9:00 AM - 4:00 PM

The class is limited to 30 people.
Breakfast and lunch will be provided.
